What to Expect during your Trip:

Alaska is a Wonder, and the last American Frontier. It is a very inspiring land. As we were told the first time we came to Alaska, "You don't take Alaska with you when you leave, it takes a piece of you and will captivate and hold you for the entirety of your life." We fish the Lake Creek area of the Yentna River. Our service allows us a very large and diverse fishing range. The Yentna River is below Denali National Park, and the Alaska Range. While fishing you are going to be exposed to Alaska weather which in

Spring consists of cold mornings 30's to 40's and afternoon highs reaching 50's. In summer months it is 30 to 40 degrees and afternoon highs can reach high 70's. Rain is always on our radar. Alaska is very veritable in weather conditions. So be prepared for any outdoor situation. At Triple C Outfitters, our primary goal is to allow each guest to tailor their own Alaskan fishing vacation with us. We have 1 guide to a maximum of 3 guests. Our guide will stay with you during the entirety of your stay. We are a full service fishing lodge and outfitter. We offer only the finest quality fishing gear for all species of salmon and native trout. The Yentna River at Lake Creek is a glacial river; it is a very energetic river with many islands and sand bars. The fresh water streams which run into the river provide the most dynamic fishing in Alaska. The Department of Alaska Fish and Game has reported over the last five years that our fish runs have steadily grown and will continue to be one of the heaviest trafficked spawning grounds for Pacific species of Salmon.
